

Ordering of Club Kit

- The club will have one sample shirt of each size, ladies and mens in stock for members to fit on and determine size required.
- The Velotex sizing chart can be used as an alternative way to determine the size of shirt required.
- The club will not be buying shirts to keep in stock and then reselling to the members. Velotex will be keeping the stock based on the numbers and sizes the club provides Velotex.
- The member must order the shirt from the club secretary via email and provide proof of payment.
- On a monthly basis, or more frequent if numbers are sufficient, an order will be placed with Velotex and paid. Individual orders can be done but want to limit to the minimum as ordering more on a monthly basis is more cost effective.
- The order will be delivered by courier to the club within 48 hours of Velotex receiving the confirmed order.
- The member will be notified by the club to collect at the admin office or at the next race.
