#### **GARMENT SIZING MODEL: WOMEN AS AT 1/4/2011**

We wish to emphasize that these size measurements are approximate, and are to be used as an accurate guideline only for a "cycle jersey fit", i.e. on the skin but not tight and certainly not loose.

Recreational cyclists, preferring a more generous jersey fit, please need to specify a jersey size, of at least one size, or possibly even, two sizes bigger, than these measurements depicted.

Herewith are our standard Women's measurements for future reference:

XS	-	Bust: 30"/77 cm	-	Hips: 34/87 cm
S	-	Bust: 32"/82 cm	-	Hips: 36/92 cm
M	-	Bust: 34"/87 cm	-	Hips: 38/97 cm
L	-	Bust: 36"/92 cm	-	Hips: 40/102 cm
XL	-	Bust: 38"/97 cm	-	Hips: 42/107 cm
XXL	-	Bust: 40"/102 cm	-	Hips: 44/112 cm

The "bust" measurements refer to a measurement taken at the widest aspect of the bust, with the subject's arms relaxed at her side, and the "hips" measurement relates to a measurement representing the widest aspect of the hips/bottom, and not the waist measurement.
